Dear Sir:-

The writer has been engaged on some engineering work in Afghanistan for the late Amir, 1911-1919. In excavating for our power canal we unearthed a good number of copper, some silver and a few gold coins.

I have one gold coin and a few silver ones that I would like to have classified or identified. Will you do this, or can you have it done for me? and will you kindly advise as to what the charges will be? Thanking you for a reply.

Yours very truly

Dear Sir:-

Your favor at hand concerning the attribution of some gold, silver and copper coins found in Afghanistan. We are especially interested here in this series, and would be pleased to do what we can in attributing your coins. Our charges would be from ten to twenty-five cents each according to the time taken. The writer will be away all of December, and if you care to send these on, please do so after January 10th.

Very truly yours,

Curator.
